MEET XSELL: THE AGENT ASSIST **X** FACTOR

XSELL Technologies was founded on the belief that the behaviors of the best-performing contact center agents could be **learned, replicated, and amplified to every agent in real-time**, transforming the way that businesses interact with their customers. Today, the XSELL team is partnering with Fortune 50 customers, using patented, AI-powered technology to capture real-time insights, driving measurable improvements in sales results, service metrics, agent engagement, and the overall customer experience.

Through the use of **proprietary algorithms**, XSELL identifies best practices and uses them to revolutionize the delivery of agent assist solutions. Simply put, we empower businesses to identify, understand, and amplify top performers' language and tactics across all contact center agents, allowing more productive and successful engagement with their customers across every interaction — voice, digital, text, or chat.

XSELL's **real-time conversational AI platform** was purpose-built for the contact center and is available to guide every agent, across every customer service interaction. By providing data-driven guidance at crucial decision points, action-oriented analytics, and human-in-the-loop artificial intelligence, XSELL partners with our customers to amplify the impact of every customer and employee experience.

Building employee competence and agent confidence gets your new team members to proficiency faster, while driving job satisfaction and superior performance encourages them to remain in role longer. Everyone wins when you empower every agent to perform like your best agent.
